From: Jon Kleinheksel   
Re: CR 697 Drainage Issue

Public Works requests Commissioners Court's consideration and approval to conduct operations on private property to remedy a drainage issue.

PW crews intend to replace a crossroad culvert at the north end of CR697. This culvert is longer than usual and extends onto private property. To complete the removal and installation of the new culvert will require access to private property. The landowner has been apprised of the situation and has consented to have PW crews on his property. The new culvert will resolve an issue at the inlet side that has escalated and could undermine the proper drainage under the road. It is anticipated that this work will take 1 week.

Should you require additional information, please contact me and I will respond accordingly.
