Benefits to County and Citizens

This grant is used to promote and protect the health of citizens in times of exigent disaster or emergency. These situations could include a pandemic, natural weather disaster, man-made accident, or terrorist attack.

The primary mechanism for a CRI response is to use Points of Dispensing (PODs) to conduct mass prophylaxis operations. This includes dispensing medications or vaccines to County residents to prevent the onset of illness and death from a specific disease or health risk.

The funds for this grant are used for personnel to design/implement response plans, preparedness exercises, coordination and procurement of response supplies and resources, training and travel associated with public health preparedness activities, and other related expenses and duties.
