### Benefits to County and Citizens

The purpose of the IDCU/SUR funds is to support efforts by local health departments in addressing public health issues, specifically the surveillance and epidemiology activities associated with foodborne and waterborne illnesses such as Salmonellosis, E. coli, Campylobacteriosis, Cryptosporidiosis, and Cyclosporiasis. The Epidemiologists are responsible for the investigation, data entry, and electronic reporting to DSHS of foodborne and waterborne illnesses as required in the Texas Administrative Code § 97.3 for Collin County. By maintaining our epidemiology and surveillance capacity, CCHCS is striving to reduce the spread of foodborne and waterborne illnesses in our community.
