2300 Bloomdale Rd, Suite 3160
McKinney, TX 75071

Dear Ms. Hayes:

Elecompack Co., Ltd of Tokyo Japan was the original designer and manufacturer of the Elecompack brand high-density movable shelving products. They created this product in the 1970s. Automated Storage and Retrieval Systems of America, Inc.(ASRS) became the sole United States manufacturer and supplier of Elecompack systems and parts (both electric and mechanical) when we purchased the patents, trademarks and drawings and began distribution in the US in 1988.

ASRS distributes only to authorized dealers. Our only authorized dealer in Texas is Southwest Filing and Storage, 11110 Tascosa St., Dallas TX75228. We do not sell to unauthorized entities due to liability and usage and safety concerns. Thank you for your interest in Elecompack products.

Sincerely,

Robert A. Gum
President
