Narrative Information

Overview

The purpose of the Homeland Security Grant Program (HSGP) is to support state and local efforts to prevent terrorism and other catastrophic events and to prepare the Nation for the threats and hazards that pose the greatest risk to the security of the United States. HSGP provides funding to implement investments that build, sustain, and deliver the 32 core capabilities essential to achieving the National Preparedness Goal (the Goal) of a secure and resilient Nation. The building, sustainment, and delivery of these core capabilities are not exclusive to any single level of government, organization, or community, but rather, require the combined effort of the whole community. HSGP supports core capabilities across the five mission areas of Prevention, Protection, Mitigation, Response, and Recovery based on allowable costs.

Primary Mission and Purpose

Urban Area Security Initiative (UASI) - Law Enforcement Terrorism Prevention Activities (LETPA):

Supports programs that address the unique multidiscipline planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas in efforts to build and sustain law enforcement capabilities to prevent terrorist attacks and support critical prevention and protection activities. Urban areas must employ regional approaches to overall preparedness.

Eligibility Requirements

Law Enforcement Terrorism Prevention Activities (LETPA)

The state is responsible for ensuring that at least 35 percent (35%) of the combined HSGP funds allocated under SHSP and UASI are dedicated towards law enforcement terrorism prevention activities, as defined in 6 U.S.C. 607.

Grant projects must be consistent with the Federal Emergency Management Agency (FEMA) Information Bulletin (IB) 412 which discusses eligible activities outlined in:

- a. The National Prevention Framework;
- b. The National Protection Framework where capabilities are shared with the prevention mission area;
- c. Section 2006 of the Homeland Security Act of 2002, as amended; and
- d. The FY 2007 Homeland Security Grant Program Guidance and Application Kit.

Activities eligible for use of LETPA focused funds include but are not limited to: Maturation and enhancement of designated state and major Urban Area fusion centers, including information sharing and analysis, threat recognition, terrorist interdiction, and training/hiring of intelligence analysts. Coordination between fusion centers and other analytical and investigative efforts. Implementation and maintenance of the Nationwide Suspicious Activity Reporting (SAR) Initiative. Implementation of the "If You See Something, Say Something" campaign to raise public awareness of indicators of terrorism and terrorism-related crime and associated efforts to increase the sharing of information with public and private sector partners. Increased physical security, through law enforcement personnel and other protective measures, by implementing preventative and protective measures at critical infrastructure sites or at-risk nonprofit organizations.

Overall Certification

Each applicant agency must certify to the specific requirements detailed above as well as to comply with all requirements within the PSO Funding Announcement, the *Guide to Grants*, the *Grantee Conditions and Responsibilities*, any authorizing or applicable state and federal statutes and regulations to be eligible for this program.

X I certify to all of the application content and requirements.

Project Summary :

Briefly summarize the project, including proposed activities and intended impact.

The North Texas Fusion Center (NTFC) conducts analysis and facilitates information sharing while assisting law enforcement and homeland security partners in preventing, protecting against, and responding to criminal or terrorist activity (to include domestic violent extremists). The fusion process, which is analysis driven and based on the intelligence cycle, proactively seeks to identify threats and stop them before they occur. The North Texas Fusion Center (NTFC) is essential to our Region. It is analysis driven. The fusion process proactively seeks to identify threats posed by terrorists (to include domestic violent extremists) or criminal enterprises and stops them before they occur. Prevention is essential in the intelligence process. This project will partially fund two Intelligence Research Analysts to perform data mining activities, reporting, and monitoring specifically associated with Combating Domestic Violent Extremism. Remaining salary amounts for these analysts will be provided from a fusion center project under the Intelligence and Information Sharing Investment Justification (IJ). This will allow the NTFC to continue to strengthen information analysis, product development and dissemination and the FLO network through fusion liaison officer recruitment and training.

Problem Statement :

Provide a detailed account of the issues, threats or hazards that your project will target. For federal Homeland Security Grants, include specific references to the regional or state *Threat and Hazard Identification and Risk Assessment (THIRA)*, as applicable.

The NTFC project will target the Combating Domestic Violent Extremism national priority by continuing to enhance information and intelligence sharing and cooperation with federal agencies through refined analytic capabilities and activities. These analysts will assist in providing threat and vulnerability assessments for special events within their coverage area and monitor social media and other information outlets prior to, during and following events to prevent domestic violent extremists from coordinating an attack and to protect the public. During special events the analysts' priorities will include: identifying potential DVE threats, mitigating potential violence from DVEs, addressing public safety issues posed by DVEs, and supporting the protection of government facilities, critical infrastructure, and citizens against the threats posed by DVEs. This project supports the THIRA by providing Intelligence and Information Sharing for a Complex Coordinated

Existing Capability Levels :

Describe the existing capability levels, including resources that are currently in place to support this project prior to the use of grant funds.

The NTFC operates from 0600 to 1900 hours, Monday – Friday, with two full-time Intelligence Research Analysts whose salaries are paid using these Homeland Security Grant funds. These analysts work under the Collin County Sheriff's Office supervision. The NTFC also utilizes one Research Specialist whose salary is paid through a State Homeland Security Grant and who is restricted to working exclusively on Critical Infrastructure protection, as well as three college Interns who perform basic office duties and are paid at hourly rates by Collin College as part of their educational experience. NTFC takes an all-crime, all-hazards approach to mitigating threats or hazards in the region. They coordinate with the Texas Department of Public Safety (TX DPS) and the Texas Fusion Center (TXFC) for Suspicious Activity Reporting submitted via iWatchTexas.org. The NTFC maintains a robust network of almost 600 Fusion Liaison Officers (FLO) and School Liaison Officers (SLO) including members of law enforcement, private-sector security, fire personnel, emergency-management professionals, military personnel, public health officers, and critical-infrastructure advisors. The FLO and SLO network encourages the multi-directional traffic of information during members' operating hours and meets for specialized training twice a year. As part of its role, the NTFC provides training and resources to further bolster relationships and collaboration in the community. The NTFC also relies heavily upon the assistance of embedded professionals from the Department of Homeland Security, the Texas Department of Public Safety, the Army National Guard, and law enforcement personnel from area police departments. The NTFC's hosting of part-time and full-time personnel and coordination of the FLO and SLO Network extends the NTFC's value and ability to serve the counties in the DFWA UA.

Capability Gaps:

Describe the capability gaps which will be addressed by the project. For federal Homeland Security Grants, include specific references to the regional or statewide State Preparedness Report (SPR).

With respect to this project, the NTFC's biggest capability gap would be the absence of funding for the two Intelligence Research Analysts, because without the Homeland Security Grant funds, the fusion center would not exist. Page 44-46 in the SPR identifies 24/7 fusion center operations as a capability gap. The two Intelligence Research Analysts serve the nation's 8th ranked urban area with a population of over 5.6 million people and over 150 law enforcement jurisdictions. The NTFC is unable to operate 24/7 due to a lack of funding that would be needed to support the additional Intelligence Research Analysts that would be required. As a result, this project is aimed at maintaining the two Intelligence Research Analysts' capabilities, not extending their hours of operation.

Impact Statement :

Describe the project goals/objectives and how this project will maintain capabilities or reduce capability gaps. The project will be effective in helping to sustain the NTFC's analytical ability and capacity to fulfill a fusion center's basic functions. It will also be effective in helping to meet the UASI priorities of enhancing information and intelligence sharing and cooperation pertaining to Combating Domestic Violent Extremism. Financial support of the two Intelligence Research Analysts will allow the NTFC to continue to strengthen: information analysis, product development and dissemination, efforts to combat domestic violent extremism, and support to the robust and growing FLO and SLO recruitment and training.

Homeland Security Priority Actions:

Identify the Texas Homeland Security Priority Action most closely aligned with this project. Each Priority Action is linked with an *Objective from the Texas Homeland Security Strategic Plan (HSSP)*. List the Priority Action by number and text (e.g. *1.2.3 Expand and enhance the network of human sources that can provide detailed and relevant information on known or suspected terrorist and criminal enterprises.*)

1.1.3 Enhance the state's capacity to identify, assess, monitor, and disrupt potential domestic terrorism and other mass casualty threats, particularly those that could impact special events, soft targets, and crowded places. (2021-2025 Texas Homeland Security Strategic Plan, page 26)

Target Group :

Identify the target group and population expected to benefit from this project.

The project directly benefits the North Texas Fusion Center. However, all FLO and SLO Network partners and citizens in counties also directly benefit from the project via their shared ability to leverage NTFC operations to enhance the security profile within their own jurisdictions.

Long-Term Approach:

Describe how the applicant agency will maintain the capabilities supported by this project without additional federal or state funds. If sustainment is dependent upon federal or state grants, describe the ongoing need for future grants, as applicable.

The NTFC relies on Homeland Security Grant funds to continue to pay for the two Intelligence Research Analyst's salaries. Without the grant funds, the NTFC would not exist to the extent that it does today.

Project Activities Information

HSGP Instructions for Project Activity Selection

Homeland Security Grant Program (HSGP) applicants should only select one project activity. The eGrants system will allow multiple selections, but each HSGP subrecipient project must fit into one and only one of the Investment Categories that are listed as project activities under the "Activity List".

Urban Area Impact

Identify the Urban Area Strategic Plan Goal and Objective that most closely aligns with this project. List the Goal/Objective specific to your Urban Area Strategic Plan by number and text (e.g., *Goal 5: Interoperable Communications. Sustain standards-based, shared systems with adequate coverage and capacity to facilitate seamless interoperable communications throughout the Urban Area. Objective 2: Complete the deployment of standards-based shared systems to serve the region.*)

Goal 5 - Enhance Intelligence and Information sharing, gathering, and analysis. Objective 5.1 - Expand and enhance regional intelligence capability and collaboration in accordance with DHS/DOJ Baseline Capabilities for State and Major UA Fusion Centers. Priority Action 5.1.4 - Enhance operations managing emergency and special events as described in the Texas Homeland Security Regional Response Plan with specific focus on terrorism/crime nexus: intelligence, analysis, operations, investigations, and resource management.

Selected Project Activities:
