Re: Paul Wilson Rd reconstruction

Recently, City of Wylie staff contacted Public Works to gauge our interest in sharing the cost of reconstructing a segment of Paul Wilson Rd. They propose to rehabilitate approximately 1,350 ft. of the road beginning at N Ballard Ave/FM2514 extending to the east and around the 90 degree turn to the north as shown on Exhibit A. This entire segment is mutual boundary with shared maintenance responsibilities between the City and Collin County.

The City hired a contractor and negotiated a price of \$130,762.50 of which Collin County would pay half or \$65,381.25. The contractor will perform Full Depth Reclamation (FDR) on the existing base, fix any base failures and apply a 4" hotmix pavement yielding a more durable surface. Per the agreement, the contractor will provide all materials, equipment and labor while the City pledges to manage the project from inception to completion.

PW staff has inspected the applicable area and concur the road has suffered significant pavement distress and should be reconstructed. We believe the cost is reasonable and fair. Public Works requests Commissioners Court's consideration and approval to accept Wylie's cost sharing proposal to rebuild 1350 ft. of Paul Wilson Rd. Funding is available in the FY2024 budget project account 1010-75001-0001-68-30-0000-637529.

Should you require additional information, please contact me and I will respond accordingly.
