- 3-Button Set-Pro Digital Controller
- 48 Pre-set programs
- Top and front access
- Large 14-1/2" wide firing chamber
- Includes furniture kit; kiln shelves and posts, kiln wash and haik brush
- Solid state relay
- Pickup or truck shipment only

Product Description

Dual hinged design offers unlimited access to your art. Lid flips up for loading tall projects, venting, or for manipulating the glass while inside the kiln, while the front loading option (see image below) makes loading your kiln easy! Features include sturdy corner mounted handles for easy access to the lid and body of the kiln, and a multi-position lid vent system. Equipped with the 3-button Set-Pro Digital Controller with Express Mode, getting started fusing will be fast and simple. Select your COE, firing type and speed to use one of 48 pre-set programs, or create and store up to 4 custom 8 segment programs of your own. Includes furniture kit; kiln shelf, glass separator and brush. Operates on standard 120v household current. 20 amps. All kilns phase 1. 2 year manufacturer warranty.

This kiln is equipped with a solid state relay. Solid state relays have a much longer life span than traditional manual/mechanical relays. They are also much more energy efficient. Relying on a semiconductor instead of the electromechanical relays means no clicking sound when running.

Furniture Kit Include

- Kiln Shelf
- 4 Kiln Posts
- 24 oz Kiln Wash
- 3 Reed Haik Brush

This large, professional series kiln features a 14-1/2" x 14-1/2" x 6-1/2" deep firing chamber. Kiln stand is included.

NOTE: This item cannot be shipped through FedEx.
