Request for County Feral Hog Grant

Statement of Purpose

Pursuant to the Texas Legislature, Texas A&M AgriLife Extension Service, Wildlife Services (WS) program hereby requests applications for County Feral Hog Abatement Grants (Grant). The Grant program (“Program”) is designed to encourage counties across the State of Texas to make a concentrated and coordinated effort to reduce the feral hog population and the damage caused by these animals throughout the year. Successful applicants will receive grants to initiate or continue feral hog abatement activities in their county. This document (“RFGA”) sets forth Program requirements and procedures.

Current abatement methods in Texas vary depending on the geographic terrain and vegetation. WS recognizes that the responsibility for management rests with landowners and local constituents who know the surrounding land and waterways, as well as the potential challenges to combating feral hogs. Through this program, the highest ranking counties will receive assistance to continue local activities which may range from educating the landowners on abatement methods, coordinating trapping and hunting programs, conducting aerial gunning and addressing public safety hazards related to feral hogs.

Projected Timeline of Events

July 8, 2024	Applications Available
August 23, 2024	Applications Due
October 1, 2024	Anticipated Award Date
August 31, 2025	Project End date

Eligibility

To be eligible for an award under the Program, the applicant must be a Texas county. The county must have or develop a method to accurately track the number of feral hogs taken in the county as well as documentation for other provisions included in the application (e.g. receipts for purchases, trap loan numbers, etc.) for the eligible period September 1, 2024-August 31, 2025.

Grantee Responsibilities and Accountability

Selected Applicants (grantees) will be responsible for conducting a project supported by the Program and for achieving the results described in the application. Each grantee shall monitor the day-to-day performance of the grant project to assure adherence to statutes, regulations, and grant terms and conditions. The grantee must carry out the activities described in the approved scope of work.

The grantee will be accountable for documenting the use of grant funds and must ensure funds are used solely for authorized purposes. The grantee must ensure:

- Funds are used only for activities covered by the approved project.

- Funds are not used in violation of the restrictions and prohibitions of applicable statutes and regulations.
- All budget and performance reports are completed in a timely manner.

Each grantee must ensure they have an adequate accounting system in place and good internal controls to ensure expenditures and reimbursements are reported and maintained for seven (7) years after the conclusion of the project.

Funding Parameters

Awards are subject to the availability of funds. If funds are not appropriated or collected for this Program, applicants will be informed accordingly.

WS will make awards after all applications are processed. Grant funds will be available on a cost reimbursement basis for county use on feral hog abatement expenditures during the grant term. A total of \$100,000 is available. WS anticipates awarding up to 15 grants ranging from \$5,000 to \$20,000 each. Applications will be reviewed through a competitive evaluation process.

Bounty programs may be included in a county's proposal, however WS will limit State funding of bounties to 50% of the amount actually paid out.

To receive grant funds, counties that are awarded Program grants must enter into a written agreement with Texas A&M AgriLife Extension Service. Grant funds will be distributed on a reimbursement basis after awarded counties submit proof of allowable expenditures.

WS reserves the right to accept or reject any or all applications submitted. WS is under no legal or other obligation to execute a grant award on the basis of a response submitted to this RFGA.

Public announcements and written notifications will be made to all applicants and their affiliated agencies, organizations, or institutions. Favorable decisions will indicate the amount of award, duration of the grant, and any special conditions associated with the project.

Due to reporting requirements from the Texas Legislature, written reports on accomplishments (including hogs removed) will be required by August 1, 2025.

Term of Funding or Duration of Projects

A Notice of Grant Award is *anticipated* to be made in October 2024. However, it is the intention of the legislature that Texas A&M AgriLife Extension Service continue to make available a level of funding similar to previous grants administered by the Texas Department of Agriculture (TDA). Counties may have continued feral hog projects following the conclusion of the TDA program. Therefore, approved projects may claim expenditures which have occurred since September 1, 2024. Projects under this funding request must be completed by August 31, 2025. No expenditures incurred after August 31, 2025, will be reimbursed.

Application Requirements

To be considered, applications must be complete and include all of the following information.

Grant Applications—Interested applicants must include all of the following information:

A narrative including:

- *County Information.* This is the name and address for the county.
- *Primary Program Contact.* This is the individual who can answer questions about the county's activities and performance.
- *Authorized Official.* This is the person legally able to bind the county in contracts or agreements, generally the county judge.
- *Previous Participation.* For counties which participated in the Feral hog grant program, a copy of the final report is required.
- *Description of Activities.* Include information on:

 - ii. Type and number of county-sponsored education program(s) about feral hog abatement technologies proposed; and
 - iii. A proposed budget (total cost for educational and operational activities, county share of bounty if proposed).
- *Certifications.* The authorized official must sign the application.

Evaluation and Selection Information

WS will conduct an administrative review to determine whether the applicant was responsive to the requirements of this RFGA. WS will take into consideration the status of any continuing project's progress.

Applications will be evaluated on the following criterion:

- The degree to which the proposal meets or supports established watershed or agricultural protection programs (*a maximum of 30 points will be awarded to those county proposals which are consistent with watershed protection plans or agricultural protection programs*).
- The estimated contribution of the proposal to removing feral hogs from the landscape (*a maximum of 30 points will be awarded for aspects of the project which contribute to fewer hogs, including trap loan programs, aerial hunting contracts, equipment purchased for control and bounties. NOTE: WS will only reimburse counties 50% of actual bounties paid. Counties planning on bounty programs need to state the total bounty pool and the county commitment to the remaining 50%. Programs which remove feral hogs but contribute to perpetuation of hogs as a resource may not receive full points.*)
- The number of landowner outreach events planned or conducted from September 1, 2024 through August 31, 2025 which include at least 1 hour of feral hog management topics, including biology, management strategies and damage assessment. We recognize that outreach in the post-pandemic environment will be challenging and encourage applicants to develop adaptive and innovative outreach plans. Media articles, 4-H presentations and collaborations with schools may be included in outreach planning (*a maximum of 5 points per event planned and 10 points per event conducted up to 20 points per application will be awarded*).
- The degree to which the county project conducts a formalized damage and control assessment (*a maximum of 10 points will be awarded if the county project records*

numbers of feral swine removed and up to 10 additional points will be recorded for a formalized county level damage assessment).

WS will include outside reviewers in evaluating proposals. County Primary Point of Contact may be queried during the evaluation process to clarify proposals.
