Re: CR 512 Drainage Issue

Public Works requests Commissioners Court's consideration and approval to conduct operations on private property to remedy a drainage issue.

PW crews intend to replace a massive 10ft. x 100ft. crossroad culvert on CR512 that failed during the extensive rainfall in May. This culvert is longer than usual and extends onto private property. To complete the removal and installation of the new culvert will require access to private property. The landowners have been apprised of the situation and have consented to have PW crews on their property. The installation will require approximately two weeks and will restore the proper drainage under the road upon completion.

Should you require additional information, please contact me and I will respond accordingly.
