Subject:

CO #025 – Freezing of Hose Bib Line for Demo

Michael,

Please find the pricing attached for SEDALCO Change Proposal CO#025. This cost is associated with the need to freeze an existing water line in order to cut and cap it so the Sally Port can be demolished. During the make safe for the demolition of the Sally Port, a-line feeding a hose bib was discovered that did not have an existing valve to be able to close the flow of water and cap it.

The cost for this change is \$2,161.39. Upon acceptance of this proposal, please issue a Change Order to the Contract to reflect the added cost.

Please call or email should you have any questions.

Sincerely,

David Gameiro Assistant Project Manager
