Commissioner Hale asked for clarification from Purchasing on this agenda item as the description for the items being purchased appeared to be incorrect.

Michelle Charnoski, Purchasing Agent, asked the Court for time to obtain the requested information. She later provided clarification stating the title for this agenda item should have specified it was for the purchase of a transceiver module and components of Cisco switches and routers to match the supporting documentation. After checking with Yoon Kim, County Administrator, Ms. Charnoski said the agenda title could be corrected to allow the Court to vote on this item. (Time 2:29 p.m.)

4. AI-56806 Funding recommendations for the Collin County Parks and Open Space Funding Assistance Program, 2023 Bond - 1st Series, and budget amendment in the amount of \$3,748,453.44 for same, Engineering.

Judge Hill noted recent changes in partnerships with cities who have previously received support and funding from the County. Several cities have indicated they no longer want to provide fire and emergency services in unincorporated areas while others do not want to pay fees associated with the use of the expanded animal shelter. Judge Hill questioned the reasonableness of using bond funds under the County's tax rate in order to award funds to these cities.

Commissioner Hale said the primary objective for these funds was to acquire land and maintain green space. In the past, projects submitted to the Parks board included non-essential items so there was a need to reevaluate future funding and to set parameters for the use of funds awarded to cities in Collin County.

The Court agreed to hold this item for further discussion at a later date (Time 1:38 p.m.)

7. **AI-56769** Acceptance of the FY2025 Juvenile CTD Program Grant award in the amount of \$123,247 with a County match of \$34,721.75, Juvenile Probation.

Commissioner Webb questioned whether it would be appropriate to accept the FY2025 Juvenile CTD Program Grant since the grant amount was not sufficient to cover the entire cost of personnel. He asked where the additional funds for the County's cash match would come from as they were not previously included in the FY2025 budget.

Hiram Hadnot, Director of Juvenile Probation, stated he was aware of the grant's shortfall and planned to use State aid to cover the difference with no additional impact to County funds. He said the State had been consistent in providing aid over a number of years so he was confident State funds would be available to make up for the grant's shortfall. (Time 1:42 p.m.)

9. AI-56749 Acceptance of the FY2025 General Victims Assistance Grant award in the amount of \$72,447.20 with a County match of \$18,111.80, Sheriff.

Commissioner Webb questioned whether it would be appropriate to accept the FY2025 General Victims Assistance grant as the grant amount was not sufficient to cover the estimated salary and benefits for this position. He further asked if the Sheriff's FY2025 budget had sufficient funds to cover the grant's shortfall.

Monika Arris, Budget Director, confirmed funding for this position was not included in the FY2025 budget. The grant was expected to cover 100% of personnel costs but the award fell short of that amount.

Jim Skinner, Sheriff, noted the importance of the position funded by this grant and asked if the County had discretionary funds available to cover the shortfall. He stated his FY2025 budget did not include additional funds to cover the cost of the cash match.

The Court discussed the possibility of accepting the grant as stated and potentially terminating the position once the grant funds expired or holding the agenda item until a later date when additional funding are found to cover the shortfall.

Linda Riggs, County Auditor, said County funds for the cash match had to be in place in order to secure the grant. She also added the effective date for the grant was October 1, 2024 so an employee was already in place performing the assigned duties. She said a delay of one week to allow the Sheriff time to find funds within his budget to cover the shortfall was acceptable.

Sheriff Skinner agreed to work on this and the Court agreed to hold the agenda item for one week.

12. AI-56830 Personnel Changes, Human Resources.

Commissioner Webb noted the salary for Deputy Sheriff Cortes exceeded the pay range maximum for this position due to supplemental funding previously received from the DOJ (Department of Justice). In addition, this position also included a 5% increase due to experience. He questioned the impact of having gone outside the pay range now that the supplemental funding for the position was no longer available. Cynthia Jacobson, Director of Human Resources, said the compensation for this position was being reduced since the DOJ supplement was no longer being paid to the County.

Commissioner Hale paused discussions to congratulate Erika Rhea, Jason Franklin, Kathy Richardson, and Kelly Maxwell on their recent promotions.

Commissioner Fletcher commented on issues raised by using supplemental funding from outside agencies and the impact on both employees and residents when those funds are withdrawn or are no longer available. Commissioner Hale said this situation and position would be appropriate to consider for reclassification as the duties performed are specialized and are above the duties in the current class/pay grade.

Sheriff Skinner shared the challenges his department faced and how Deputy Cortes' expertise was invaluable to reducing the amount of fentanyl coming into Collin County. He said the recent changes in how supplemental funding from the DOJ are used made it difficult to retain employees like Deputy Cortes if an alternate source of funding was not readily available. ### **3. Executive Session Items:**

The Court did not recess into Executive Session.

### **Public Comments not related to an item on the Agenda.**

Tom Williams, WPA (Wylie Preparatory Academy), expressed concern over recent collisions at the intersection of Hwy 78 and Skyview Way near WPA and the need for warning traffic lights and signs. In September 2023, the City of Wylie obtained a third-party survey of the intersection which resulted in a recommendation for adding warning signs with flashing beacons as well as two No U-turn signs. The signs were added and removed the next day by the City Manager, Brett Parker, as he felt they were not warranted. He asked the Court for guidance on how to proceed with this matter. (Time 2:17 p.m.)

Judge Hill thanked Mr. Williams for sharing his concerns and asked Clarence Daugherty, Director of Engineering, to assist Mr. Williams following the meeting.

Lee Moore, Fairview, spoke on the main objectives of logic and accuracy tests which are performed on election equipment prior to an election. She said the County's tests do the bare minimum and she outlined several reasons why these test results were not acceptable. She urged the Court to take steps to improve the testing process. (Time 2:21 p.m.)

Debbie Lindstrom, McKinney, shared concerns regarding the lack of oversight on unused ballots. Citizens Defending Freedom performed an audit using information obtained through public information requests and found over 76,000 unused and unaccounted for ballots for the period from November 2020 to November 2023. She said citizens expect all ballots to be accounted for during early voting and on Election Day. (Time 2:24 p.m.)

Debbie Calvin, McKinney, shared the outcome of a recent limited scope review of early voting unused accountability forms from municipal elections held between May 2023 and 2024. She noted errors and multiple methods used to account for unused ballots. The County's Election office was given suggestions on improving use of the accountability form and she urged the County to improve reconciliation processes to provide an auditable count of unused ballots. (Time 2:27 p.m.)

Chuck Reynolds, McKinney, expressed his concerns over secure and accurate elections in light of current cybersecurity risks. He said BMDs (Ballot Marking Devices) posed a security risk because votes could not be verified after being submitted. He asked the Court to take accountability for providing secure and accurate elections instead of relying on federal certifications of accuracy. (Time 2:32 p.m.)

Avis Novak, McKinney, shared her concerns on election integrity and noted several reasons given by the Court for not moving forward on purchasing BOD (Ballot-On-Demand) printers during the August 19, 2024 Public Hearing. She asked the Court to provide clarification on the intended use of additional wireless election equipment purchased by the Election Department as well as an update on election options for improving election integrity. (Time 2:35 p.m.)

Judge Hill asked Yoon Kim, County Administrator, when the information requested by Ms. Novak would be available. Mr. Kim said it would be provided to the Court on November 11, 2025.

Rick Worrel, McKinney, stated the County's Logic and Accuracy tests were meaningless since a line-by-line code review of the software was not being performed. He said specifics related to software coding and technical components in election devices were deemed to be proprietary by vendors so transparent elections were not possible when using these election electronics. (Time 2:38 p.m.)

Barbara Dawn Lyke, Wylie, asked the Court to support medical science research for all cancers. She listed several reasons to continue to raise cancer awareness and highlighted a number of organizations involved in cancer research. (Time 2:42 p.m.)

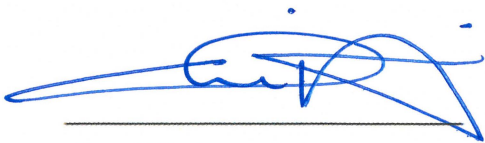

Judge Hill addressed the Court with his concerns over Mr. Worrel's contemptuous demeanor during past and current public comments. He asked the Court to consider restricting Mr. Worrel from participating in future public comments. Commissioner Fletcher said she preferred to wait to make a decision on the matter until after consulting with legal counsel.

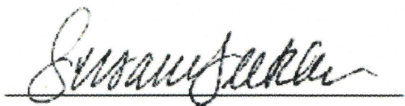

After further discussion, the Court agreed to remind all public speakers of the rules of decorum when speaking before the Court. (Time 2:46 p.m.)

Josh Murray, McKinney, expressed concern over the County's finances and its inability to provide adequate funding for the animal shelter and Sheriff's Office for years. He said the County should plan ahead to fund critical positions instead of relying on federal grants which by their nature are not guaranteed. He offered his solutions for providing a more transparent budget and tax rate to voters. (Time 2:49 p.m.)

With no further business of the Court, Judge Hill adjourned the meeting at 2:50 p.m.
