RFQ 2024-369, Professional Services, Engineering Consulting Services to Collin County

Vendor Q & A:

1. Will there be public involvement on all 3 projects?

A: It is important that proposers assume that public involvement will be involved in all of the projects. Proposers need to provide information about the experience and knowledge of the team to provide a solid public involvement process for any of the projects.

2. What type of work is expected related to NRCS?

A: Being familiar enough with NRCS requirements for their facilities (lakes) to know what has to be done to either avoid the facilities or to know what to do if the project impacts one of NRCS's facilities.

3. How does the maximum 12 pages count work when submit electronically? Will the "yes or no" type of question count into the pages when submit responses through OpenGov portal?

- a. Submitted data submitted electronically should not exceed 12 pages when printed. When answering questions in OpenGov portal, those should be counted in the 12 pages as well.
