Re: E Stone Rd Reconstruction/ILA

Last year, Public Works apprised Court of a continuing issue with E Stone Rd's condition. At the time, the City of Wylie had proposed a joint effort to reconstruct the roadway after a comprehensive engineering analysis performed by ECS Southwest. The concept entailed reconstructing the entire asphalt portion of E Stone Rd from S W A Allen Blvd east and north to Bennett Rd. The project will result in an upgraded asphalt road with a 25 year design life. The Court approved the idea and reserved funds to finance the County's share of the cost.

Since then, the City of Wylie has formalized the concept of a shared project into an Inter-Local Agreement as Attachment A. Wylie will manage all aspects of the project and will assume full responsibility for road maintenance once reconstruction concludes. Our legal counsel has reviewed the document and is satisfied with the provisions, language and responsibilities set forth.

PW staff still believes that divesting ourselves of this road with a one-time project payment would be advantageous for the County. Public Works requests Commissioners Court's consideration and approval of the attached ILA with the City of Wylie to reconstruct E Stone Rd.
