MEMO

Date: January 13, 2025
To: Commissioners Court
From: Tracy Homfeld, P.E., CFM; Collin County Engineering
Subject: Contract Amendment #1 for Support Services with LJA Engineering for the Collin County Storm Water Program for the 2025 annual report for 2024 activities.

HISTORY OF THE PROGRAM

In 2008, Collin County created its first Storm Water Management Program (SWMP) to comply with Federal and State regulations. We submitted the first Storm Water Management Plan and Notice of Intent (NOI) to the Texas Commission on Environmental Quality (TCEQ) on February 11, 2008.

This year we will be submitted our Fourth Term Program Renewal to TCEQ, which will extend our permit for another 5 years (204-2029).

PRESENTLY

We just completed the first year's activities in 2024 for the new permit term. The Engineering department staff has monitored the 2024 activities with the help of other county departments. With the help of LJA, we will prepare the 2025 annual report that details the year 2024 activities and submit to TCEQ by March 31, 2025.

Total cost for the proposed engineering consultant services is \$31,300.

The report (2025 report for Year 2024 activities) will be brought back to court for approval and subsequent submittal to TCEQ.

ACTION:

We request that you consider approving the contract amendment #1 with LJA Engineering for support services of the Collin County Storm Water Program (2025 Report for the Year 2024 Program Activities).
