

State of Texas	§	Court Order
Collin County	§	2025-448-05-05
Commissioners Court	§	

A resolution of the Collin County Commissioners Court adopting a Collin County Municipal Utility District and Municipal Management District Policy.

This policy outlines the Collin County Commissioners Court's process and procedures for determining whether or not to oppose municipal utility districts (MUDs) or municipal management district (MMDs).

Legislatively Created Districts

State statute requires a commissioners court be notified of the intent to create a MUD/MMD before the legislation is filed. The draft legislation is sent to the county and reviewed by staff. The Collin County Commissioners Court may oppose any MUD/MMD legislation that does not include key provisions related to road powers and police, fire, emergency services, or animal control services. The legislation must require a MUD/MMD to contract with a municipality, the county, or another entity for these services.

In addition, legislation must contain the following language:

The Commissioners Court of Collin County shall review a contract under subsection (-) and evaluate the supplemental police, fire, emergency, and animal control services provided in the contract. If the Commissioner Court determines that the contract provides adequate services, the Commissioners Court shall adopt a resolution stating that the contract has met the requirements of subsection (-).

If the legislation does not contain the above provisions, the Commissioners Court may adopt a resolution in opposition to the MUD/MMD creation legislation and distribute it to the members of the Texas Legislature. Once the MUD/MMD creation legislation contains the necessary language, the Commissioners Court may adopt a resolution in non-opposition to the MUD/MMD creation legislation.

Administratively Created Districts

The Commissioners Court hereby directs county staff to monitor Texas Commission on Environmental Quality (TCEQ) filings for any MUD/MMD application from Collin County. The Collin County Commissioners Court may oppose any MUD/MMD application that does not include key provisions related to road powers and police, fire, emergency services, or animal control services. The application must require a MUD/MMD to contract with a municipality, the county, or another entity for these services.

Once the MUD/MMD application contains the necessary language, the Commissioners Court may adopt a resolution in non-opposition to the MUD/MMD application.
