To Whom it May Concern:

This is to confirm that products imported into the United States are currently subject to a range of tariffs (import taxes), as mandated by Executive Order by the President of the United States.

Victory Supply is subject to and being charged these tariffs. The tariffs are being implemented and collected by the U.S. Customs and Border Protection agency on each incoming shipment.

As of today, Victory Supply products imported from Pakistan, India and Bangladesh (as well as most other countries) are subject to HTS 9903.01.25, which applies an additional 10% tariff on the cost of the products.

As of today, Victory Supply products imported from China are subject to HTS 9903.01.25 and 9903.01.24, which apply an additional 10% and 20% tariff respectively, for a total of an additional 30% on the cost of the products.

Best Regards,

Pam Mallette
