Exhibit 2

Statement of Work for Implementation of Enterprise Jury Manager, Browser-based Jury Management System SaaS Implementation In Collin County, TX

Tyler Technologies will implement Jury Analytics in **Collin County, TX** under the following terms.

Project Terms

Tyler will:

- Provision the COTS Jury Analytics application.
- Manage the source system integration to Enterprise Jury.
- Consult Collin County in user acceptance testing, as needed.
- Lead one train-the-trainer training.

Jury Solution Assumptions

- Deployment, configuration, automation and launch of Jury Analytics.
- Jury Analytics allows administrators and supervisors to monitor the health of their Jury program and more effectively supervise operations by visualizing data related to:
 - Jury Pool
 - Operations
 - Financials
- Metrics are created from five core datasets: **Source List, Service Cycle, Appearance, Deferral, and In Service.**
- This data will be hosted on the Enterprise Data Platform, for which end user access is not provided, and which is maintained by Tyler.
- Jury Analytics is intended for internal data sharing and does not permit public facing access.

Packaged Analytics – Out of Scope

The scope of Packaged Analytics does not include the following:

- Data analysis services.
- Consulting services beyond those described in the scope of this SOW.
- Custom metrics configurations to the Analytics application(s).

- Additional managed data pipelines to the Enterprise Data Platform beyond the preset data integrations for the Analytics application(s).
- End user access to the Enterprise Data Platform.
- Developing and architecting a framework of performance metrics beyond those included in the Analytics application(s).
- Data upload administration (beyond the initial dataset(s) set forth under this SOW).
- Data culling administration prior to upload to the Enterprise Data Platform.
- Data collection administration (all data is collected by the client and originates on the client's network and systems. Only a mirror copy is uploaded from the client's network to the EDP-hosted solution).
- Legal advice.
- System of record repositories.
- Non-English Language Translations or components, data, or page contents.
