		<input checked="" type="checkbox"/> Required County Match
		<input type="checkbox"/> None
		<input type="checkbox"/> In-Kind Match

Grant Description
The purpose of this announcement is to solicit applications from law enforcement agencies to equip peace officers with body-worn cameras.

How Do You Intend to Utilize The Grant Funding
The agency is requesting 64 body cameras, along with required batteries and charging stations, to outfit all of patrol and specialized units.

How Will This Benefit Collin County
This project aligns with evidence-based policing practices that recognize body-worn cameras as a critical tool for accountability, transparency, and officer safety. National best practices support full-scale deployment rather than partial issuance to avoid inconsistency, inequity, and operational confusion.
Modern body-worn camera systems provide objective documentation that improves investigative outcomes, enhances training, and strengthens public confidence. By deploying cameras across all operational units, CCSO ensures consistent application of this proven technology and maximizes the return on investment.

The Department named above is applying for the Grant Program named above, and if awarded, will accept full responsibility for the management of any funds awarded to the County under this grant, and will adhere to any policies and procedures set forth by the Grantor and its related agencies or agents, as well as those of the County, and its financial and administrative departments.
