Re: Texas Juvenile Justice Department Grant Award – DSA Supplemental – Body Scanner

The Collin County Juvenile Probation Department seeks approval to apply for the Texas Juvenile Justice Department (TJJD) Discretionary State Aid (DSA) Supplemental – Body Scanners FY2026 grant. Grant funding will be used to purchase and implement an advanced full-body scanner at the Collin County Juvenile Detention Center to strengthen facility safety and security.

The body scanner will support the screening of youth during admissions, returns from court appearances, medical appointments, transports, and other facility entry points to detect concealed weapons, narcotics, cellular devices, and other prohibited contraband. The equipment will enhance screening efficiency, improve the safety of youth, staff, and visitors, and provide a more effective, less intrusive screening process consistent with best practices in juvenile detention.

The grant requires no county matching funds. Grant funds may be used for the purchase, delivery, installation, implementation, software licensing, operator training, warranty, and other eligible costs directly associated with the body scanner system.

Respectfully,

Cyndi Porter Gore, Director
Collin County Juvenile Services
