ESTIMATE DETAILS

Underground sewer repair (58' Approx.): Project: Sewer Line Excavation and Repair

The Contractor shall provide all labor, equipment, materials, and supervision necessary to complete the following work:

Scope of Services

Excavate approximately 58 linear feet to expose the existing sewer line.
Establish two (2) access points to facilitate excavation and repair operations.
Break into the existing sewer line at the required locations.
Perform all necessary repairs to the damaged section of the sewer line.
Conduct testing of the repaired line to verify proper operation and confirm there are no leaks.
Backfill the excavation with suitable material and compact as required.
Restore the work area to a safe and serviceable condition upon completion.

Inclusions

Labor, equipment, and materials required to complete the excavation and repair.
Disposal of excavated and unsuitable materials, as necessary.
Testing of the repaired sewer line.
Backfilling and compaction of the excavation.

Exclusions

Unless specifically stated otherwise, the following are excluded from this scope:

Taxes

Pavement, concrete, asphalt, landscaping, or decorative surface restoration beyond standard backfill.
Permits, engineering, inspections, or utility locates by others (unless specifically included).
Additional repairs resulting from unforeseen site conditions or damaged utilities not visible prior to excavation.
Dewatering, rock excavation, or hazardous material remediation, if encountered.
Any unforeseen issues.
