Date: January 6, 2026

Subject: Change our name from Collin County Health Care Services to Collin County Public Health

As we prepare for the upcoming relocation and related updates to addresses, licenses, and official documentation, this is an appropriate time to change the organization's name from **Collin County Health Care Services** to **Collin County Public Health**.

The current name has caused confusion within the community, as it suggests a clinical care provider rather than a government public health authority. Collin County Public Health accurately reflects our state-recognized designation and reinforces our role in disease prevention, emergency preparedness, and population-based public health services.

Making this change, concurrent with the relocation, allows for efficient, coordinated updates while minimizing disruption.

I respectfully request your consideration.
