RE: Renewal Application and Acceptance for the Texas Department of State Health Services (DSHS) FY 2027 Immunizations Grant Contract Number: HHS001331300036

Attached is the Fiscal Year (FY) 2027 Immunizations/Locals renewal grant application and acceptance. The grant period is from September 1, 2026 to August 31, 2027 with level funding in the amount of \$354,062. Collin County requires a 10% de Minimis indirect cost rate which has been applied to this grant.

By applying for and receiving this grant funding, Collin County Health Care Services will be able to maintain staffing and operations for Immunization services and continue to meet all program requirements.

This grant provides essential support for Collin County's Immunizations program to provide vaccination services to the community and strengthens the epidemiologic response to vaccine-preventable diseases such as Perinatal Hepatitis B. Grant funds will support personnel costs and other core program activities. For expenses not allowable under the grant, Health Care Services' existing budget has traditionally covered these minimal expenses, and no additional funds are needed. Since these positions are permanent, associated electronic devices remain part of the department's standard IT replacement plan.

I respectfully request approval for this grant renewal application and acceptance to ensure the continuation of these critical services and essential positions.
