Subject: Quick Turnaround Ebola Funding Opportunity

Good morning,

We have an opportunity to request funding to support Bundibugyo response activities. In speaking with CDC, the funding should be used for surveillance and monitoring. We wanted to check about needs you may have regarding this opportunity. CDC has not provided us how much money is available.

Allowable expenses could be for temps to assist with the monitoring activities, supplies to support monitoring (e.g., PPE), and risk communication activities. The funding cannot be used for wrap around services or transportation of patients. Efforts should focus on 6-months and the required budget template is attached. Due to the short-term length of this grant, we will give preference to those departments with larger number of Ebola PUMs

This is a quick turnaround, and any requests are due NLT Friday, June 19. POC is Dr. Grace Kubin (Grace.Kubin@dshs.texas.gov)

With thanks,
Dave
